

Leadership Solutions

**DON'T SETTLE.
BUILD EXCEPTIONAL
LEADERS.**

If you're like many mid-market manufacturers, you struggle to maintain a high-performing leadership team. But you don't have to settle for the status quo. You can drive leadership capability within your organisation that can set your business apart and move performance in the right direction fast.

Is your organisation's performance hindered by an inability to:

- Develop internal high potential players
- Optimize leadership capabilities for driving effective execution
- Engage leaders with the right management system
- Successfully implement key strategic projects due to lack of bench strength
- Model exceptional leadership performance
- Recruit external high performing talent

With the TBM approach to leadership excellence, you will:

- Use our proprietary six-point Leadership Assessment to identify and address organisational gaps that stand in the way of high performance
- Leverage TBM's "What Good Looks Like" profiles to understand the leadership and technical skills needed for success in each leadership role
- Implement training and development based on the profiles and identified gaps
- Embed resources to lead key portions of your business or drive strategic initiatives
- Map out a go-forward plan to sustain leadership excellence into the future

Establish a sustainable competitive advantage through leadership.

LEADERSHIP DEVELOPMENT

Our Leadership Solutions practice develops your leaders on two critical dimensions: technical capability and managerial skills. Using our proprietary "What Good Looks Like" profiles and our six-point Leadership Assessment, we identify the gaps between where your leaders currently are and where they need to be to drive business performance. Development programs and recommendations are based on the analysis and tailored to the specific needs of your individual leaders and your organisation.

STRATEGIC EMBEDDED RESOURCES

Our leadership consulting team has walked in your shoes. Our professionals can step into your organisation within days, bringing hands-on operational, supply chain, and managerial expertise to the heart of your business for a period of time. Our leadership consultants become part of your team, working alongside your people, to accelerate results, transfer knowledge, and grow internal capabilities so your business can maintain momentum and sustain the benefits long term.

TALENT MANAGEMENT PROCESSES

We help manufacturers build internal talent management processes specifically designed to attract and retain top-tier operational and supply chain leaders. From expediting the recruiting process to implementing retention best practices, we can help your organisation become more proactive and strategic about identifying and retaining the highest quality leadership talent ensuring your business always has access to the best talent for your immediate and future leadership needs.

Address your immediate and long-term talent needs with a comprehensive approach to leadership excellence.

Our Leadership Solutions practice takes a practical approach to quickly improve your organisation's leadership capability and help you develop the high caliber leaders you need to drive value for your business. You don't have to settle for good enough. Use our approach to differentiate your business through operational and supply chain leadership excellence.

The TBM Approach to Leadership Excellence

Our leadership solutions consultants use our proprietary Leadership Assessment to diagnose your organisation's operational leadership capacity across six dimensions: organisation, individual technical capabilities, individual leadership capabilities, talent management processes, leadership risks, and culture.

Our team creates a practical go-forward plan for addressing areas of weakness within your organisational structure and current and future leadership teams. We decide where to embed resources and process rigor to rapidly build high-performing leadership.

We put your go-forward plan into action right away, working at the point of impact with your operations and supply chain teams to instill the techniques, behaviors, and processes needed to effectively execute and manage performance at all levels of the organisation.

We track and regularly review the performance of resources and leaders who are receiving coaching and training and well as the business impact for your organisation.

Don't settle.
